- Ge Jizhong, on behalf of the China customs declaration association, was elected as the executive director of IFCBA by a high vote to promote the new development of the world customs declaration industry
- Xinhai attended the 9th asia-europe meeting to discuss the changes in the customs clearance business model of new international trade facilitation
- Xinhai 2018 Cross-Strait Customs Clearance Forum to promote integration and common development

New progress of integration of customs and inspection

Notice of the General Administration of Customs No. 50 of 2018 (notice of the general administration of customs on matters related to cancel customs clearance form for import / export goods)

•The customs clearance form is cancelled, instead, filling the inspection and quarantine number on the electronic receipt for inspection and quarantine / the electronic bottom account data number and code for enterprise inspection and quarantine on the electronic receipt for inspection and quarantine (implemented as of June 1)

Notice of the general administration of customs on soliciting opinions on amending the format of import and export cargo declaration forms and record lists.

•The general administration of customs intends to adjust the import cargo declaration form, export cargo declaration form, entry cargo record list and exit cargo record list, and now is seeking public opinions. (deadline is June 4)

Measures to promote integration of customs and inspection

- The declaration and inspection declaration forms have been streamlined and consolidated, reduced from 229 declarations to about 160.
- Add declaration items that take into account the need for safe access and international cooperation.
- Optimize and adjust the format of the application page
- Planning and unification of upload data format.

Pilot of integration of customs and inspection

•Customs H2010 system and ECIQ system are officially integrated . At the end of September, Pilot of integration of customs and inspection will be launched. The scope and impact of implementation will be further expanded by " one declaration, one inspection and one release".

Notice for canceling declaration of customs clearance form

Import

•When applying for import commodities that involve legal inspection and quarantine requirements, if the "single window" is used for separate customs declaration and inspection application interface or the customs declaration and inspection application enterprise client application, the enterprise have to fill in the inspection and quarantine number on the electronic receipt of inspection application in the document column attached to the customs declaration form and fill in the code "A".

Export

•When reporting export commodities that involve legal inspection and quarantine requirements, enterprises do not need to fill in the code and number of the original customs clearance form in the document column attached to the declaration form. they should fill in the electronic bottom account data number of the enterprise's application for inspection on the electronic receipt of application for inspection and fill in the code "B".

Under special circumstances, there is still a need for paper certificates for inspection and quarantine: For animals and plants and their products entering the country, if a delivery certificate is required during transportation, a paper "notice of transferring the goods entering the country" shall be issued. For special goods such as centralized export declaration, or due to computer and system problems, the paper "contact list for inspection and quarantine of outbound goods" shall be issued as required.

Notice on the full implementation of paperless networking for customs clearance of wildlife import and export certificates

Customs laws and regulations:

- Announcement of the state border control office of the general administration of customs No. 15, 2017 (on the networking paperless pilot of wildlife import and export certificate clearance in Harbin, Fuzhou, Xiamen and Kunming customs)
- Announcement No. 49 of 2018 of the state administration of import and export of endangered species of the general administration of customs (announcement on the full implementation of paperless customs clearance of wildlife import and export certificates)

- The announcement made it clear that the national implementation of wildlife import and export certificate customs clearance work networking paperless
- It is clear that paperless customs clearance is not applicable
- The temporary customs clearance procedures for special reasons such as system failure have been clarified.

Notice on the full implementation of paperless networking for customs clearance of wildlife import and export certificates

Certificate of import and export of "two types and three kinds" of wild animals and plants

Starting from June 1st, 2018, the national wildlife import and export certificate clearance operation has been carried out without paper. The implementation of the online paperless wildlife import and export certificate includes the "convention on international trade in endangered species of wild fauna and flora" permit import and export certificate, the people's Republic of China permit import and export certificate of wild fauna and flora are not of the species certificate of the "catalogue of goods for import and export of wild species of fauna and flora".

The "attached document code column" of the "attached document column" shall fill in the document code "F/E"; Fill in the 14-digit certificate number in the "attached document number column"; The electronic data of wildlife import and export certificates should be consistent with the "commodity name" in the electronic data of import and export cargo declaration forms. The code of "import port/export port" in the declaration form of import and export goods is the same as the code of "import and export port" in the electronic data of wildlife import and export certificate.

Declaration specification

Declaration specification

The correspondence between the commodity items of import and export goods declaration form and the commodity items of wildlife import and export certificate shall be filled in the "document correspondence table". Correspondence must be one-to-one and not one-to-many or many-to-one.

There may be both wild animals and plants and non-wild animals and plants in the declaration form for import and export goods; There is no need to fill in the "document correspondence table" for the item number of goods that do not belong to wild animals and plants and their products in the import and export declaration form.

Declaration specification

Notice on the full implementation of paperless networking for customs clearance of wildlife import and export certificates

Please refer to "place of business (English)" in " registration form for foreign trade operators", " receipt for registration of establishment of foreign-invested enterprises" and " place of business (English) in" registration form for international freight forwarding enterprises " for filling in the English name and address of enterprises.

If the enterprise does not belong to cross-border electronic commerce enterprise, please select " non-cross-border trade e-commerce enterprise".

" Customs Official" shall fill in the name of the senior management personnel in charge of customs affairs in this unit. If the enterprise is not a customs management enterprise or has been registered with the customs but has been cancelled, the enterprise does not need to submit the annual report of the customs. However, the industrial and commercial publicity system cannot be saved and publicized. it is suggested to fill in " none".

Annual report summary

The screenshot shows the 'National Enterprise Credit Information Publicity System (Shanghai)' registration form. The form is divided into several sections:

- 企业基本信息** (Enterprise Basic Information): Includes fields for company name, English name, and address.
- 特殊贸易区域** (Special Trade Area): A dropdown menu for selecting the trade zone.
- 财务负责人** (Financial Officer): Fields for name, ID, phone, and email.
- 海关负责人** (Customs Officer): Fields for name, ID, phone, and email.
- 经营场所性质** (Business Venue Nature): A dropdown menu for selecting the venue type.
- 经营补充信息** (Business Supplementary Information): Fields for storage, fixed assets, and operating income.
- 企业自律管理情况** (Enterprise Self-discipline Management Status): Radio buttons for customs certification status.

Annotations on the form include:

- A dashed line pointing to the '特殊贸易区域' dropdown menu, corresponding to the text: "The declaration of 'special trade area' should pay attention to whether the enterprise belongs to the FTZ. For example, if enterprises in Shanghai are registered in Waigaoqiao Free Trade Zone, Waigaoqiao logistics park, Yangshan Free Trade Port Area, Pudong Airport Comprehensive Free Trade Zone, Lujiazui Finance Zone, Jinqiao Development Zone and Zhangjiang Hi-Tech Zone, they need to fill in the form according to the actual situation."
- A dashed line pointing to the '经营补充信息' section, corresponding to the text: "The financial statements and other data involved in the 'supplementary management information' column shall be kept to two decimal places and accurate to points when filling in."
- A dashed line pointing to the '企业自律管理情况' section, corresponding to the text: "The 'self-discipline management of enterprises' is mainly aimed at the requirements of customs certification enterprises, and there is no mandatory requirement for non-customs certification enterprises. Be realistic and fill in."

The declaration of "special trade area" should pay attention to whether the enterprise belongs to the FTZ. For example, if enterprises in Shanghai are registered in Waigaoqiao Free Trade Zone, Waigaoqiao logistics park, Yangshan Free Trade Port Area, Pudong Airport Comprehensive Free Trade Zone, Lujiazui Finance Zone, Jinqiao Development Zone and Zhangjiang Hi-Tech Zone, they need to fill in the form according to the actual situation.

The financial statements and other data involved in the "supplementary management information" column shall be kept to two decimal places and accurate to points when filling in.

The "self-discipline management of enterprises" is mainly aimed at the requirements of customs certification enterprises, and there is no mandatory requirement for non-customs certification enterprises. Be realistic and fill in.

Annual report summary

1. Does the tax reduction and exemption enterprise need to submit the " report on the usage of tax reduction and exemption goods" through the " combination of multiple reports"?

•Enterprises that import goods with tax reduction or exemption within the regulatory period will not submit information on the use of imported goods with tax reduction or exemption in 2017 through the publicity system, and can submit the " report on the use of tax reduction or exemption goods" to the customs through the QP pre-entry client application system for tax reduction or exemption at China electronic ports.

2. The enterprise has completed the publication of 2017 annual report before may 1, 2018. Does the customs information need to be submitted?

•In this situation, the enterprise should make an additional customs annual report by December 31 through the publicity system. Log in to the publicity system and click " edit" after " 2017 annual report" in " annual report management" to carry out customs annual report matters.

3. If the enterprise did not have import and export business last year, can the annual report not be reported?

•An enterprise registered with the customs should submit its annual report to the customs even if it had no import and export business last year. The contents of the annual report filled out by the enterprise should truly reflect the actual situation of the existence and operation of the enterprise.

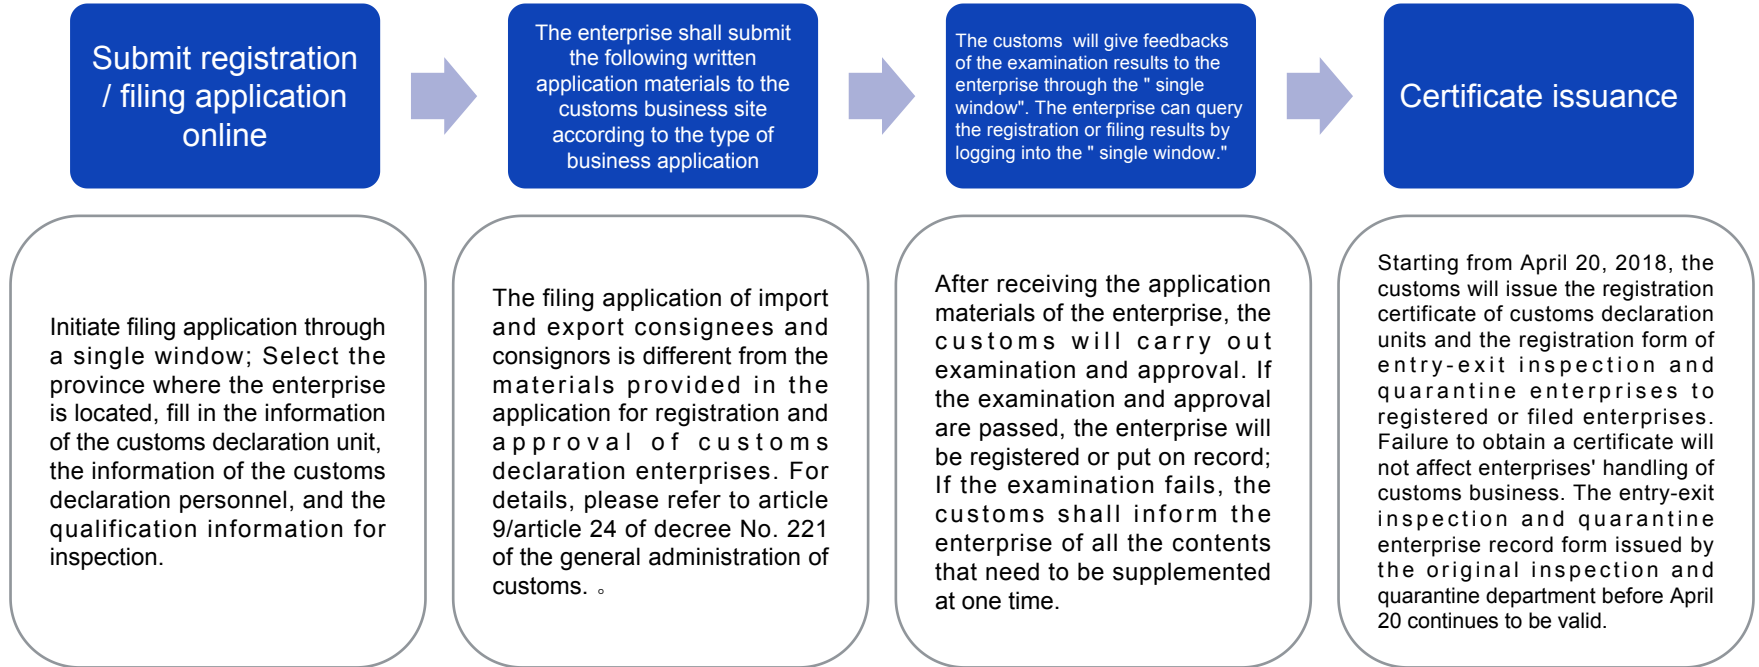

4. If the enterprise has completed sending the 2017 annual report, but finds some items need to be changed due to input errors, is it available?

•If the 2017 annual report of customs information needs to be changed, it can be changed in the publicity system, which will be extended until August 31, 2018. After that the modification function will be turned off.

Announcement on matters related to the integration of enterprise declaration and inspection qualification

Announcement of the general administration of customs No. 28 of 2018 (announcement on matters relating to the integration of enterprise declaration and inspection qualification)

Ge Jizhong, on behalf of the China customs declaration association, was elected as the executive director of IFCBA by a high vote to promote the new development of the world customs declaration industry

On May 28, vice president Ge Jizhong, secretary general Bai Fengchuan and deputy secretary general Wang Min of the China customs declaration association represented China customs declaration association to participate in the IFCBA Council held in Manila, Philippines. About 30 representatives of IFCBA member States attended the meeting. In this meeting, the president of the Canadian customs declaration association was elected as the chairman for 2018 - 2020. The multi-candidates included Argentina, Angola, China, the United States, Greece and Italy as the IFCBA standing directors. Ge Jizhong, vice-president of the Chinese customs declaration association, was elected on behalf of the association by a high vote and continued to serve as the IFCBA standing director.

Bai fengchuan (second from the right), secretary general of China customs declaration association, Ge Jizhong (fourth from the right), vice chairman of China customs declaration association, Wang min (first from the right), deputy secretary general of China customs declaration association, and former chairman of the IFCBA (third from the right)

IFCBA representative group photo

Bai fengchuan, secretary general of the China customs declaration association, introduced the development of the China customs declaration association in recent years and its active participation in the relevant work of the IFCBA. CCBA attaches great importance to the exchange and cooperation with its counterparts in other countries. At the same time, all colleagues are always welcome to learn about China import and export policies and other information from us. Ge Jizhong, vice chairman of the China customs association, put forward three suggestions on " how IFCBA can promote the development of the world customs declaration industry and trade facilitation" in the Council: " First, China is promoting the AEO certification system. Can IFCBA members implement mutual recognition of qualifications to reduce the cost of good faith certification, and promote trade facilitation? Second, the cross-border e-commerce business is developing rapidly. Can IFCBA exchange information and trace back to each other the sources of commodity information so as to ensure the safety and compliance of trade? Three, China FTA starts a new round of opening. Can we implement preferential sharing among IFCBA members so that more enterprises can enjoy FTA preferential policies? " The suggestions of China customs declaration association attracted the enthusiastic attention of other guests and representatives attending the meeting.

Xinhai attended the 9th asia-europe meeting to discuss the changes in the customs clearance business model of new international trade facilitation

On may 23, the " 9th ASEM Customs-Trade Day" hosted by the general administration of customs of China was held in Chengdu. Ms. Hu Lan, deputy director of the international cooperation department of the general administration of customs of China, and Mr. Marc Gombeer, vice president of Volvo motor group delivered speeches. In particular, the organizer invited Ge Jizhong, chairman of Shanghai Xinhai Customs Brokage Co., Ltd., to give a keynote address as an industry representative to discuss the new development of interactive international trade with distinguished guests from all circles.

Chairman of Xinhai Ge Jizhong made a keynote speech on " changes in customs declaration format for international trade facilitation"

Chairman Ge (2nd left) communicates with Zhou Junbo (1st left), general manager of Chengdu international railway investment and development Co., Ltd.

Chairman Ge said: " Under the new era, the reform of large customs clearance has greatly influenced the transformation and upgrading of customs declaration enterprises, pushing forward the continuous transformation of customs declaration formats, from" centralized service " to" step - by - step service ", from" series " to" parallel " customs clearance, making the development of cross-border trade promote diversification of transportation modes," domestic convenience " to" international convenience ", and gradually expanding international trade to cross-border trade. And enterprises should take the opportunity to actively transform themselves into electronic, integrated, compliant, networked and internationalized enterprises. Customs declaration industry should actively cooperate with customs to promote trade facilitation! The China international import Expo to be held in November and the " 6 days + 365 days" one-stop trading service platform will also have far-reaching impact on promoting trade facilitation! Chairman Ge's speech attracted the warm attention of other guests and delegates.

Xinhai attend 2018 Cross-Strait Customs Clearance Forum to promote integration and common development

On June 9, 2018, the “2018 Cross-Strait Customs Clearance Forum” sponsored by the China customs declaration association was held at Xiamen international conference center. Hao Chongfu, former director of the supervision department of the general administration of customs, Huang Shengqiang, former party member of the general administration of customs, director of the national port management office, former deputy director of the Taiwan customs administration, and Xie Lianji, former customs chief of Taipei, Taichung, Kaohsiung, Keelung and other distinguished guests attended the meeting. Ge Jizhong, chairman of Shanghai Xinhai Customs Brokage Co., Ltd., was invited to attend the forum and gave a performance: “At present, our country’s AEO system has reached the forefront of the world. There are many preferential policies in the framework of international trade, such as FTA preferential policies and ATA systems, which make it easier for us to customs clearance. In the general environment of China customs clearance reform, with the deepening of measures such as the unification of customs and inspection, the unification of national customs clearance and the construction of a single window for international trade, the new changes in China customs have created a more efficient and convenient customs clearance environment for the vast number of import and export enterprises.”
